Family owned, but far from a mom and pop outfit, we
are totally dedicated to having Bill's Sweeping be your
#1 sweeping and washing service. With over 120 years
of combined experience and expertise, you can feel
confident about Bill's Sweeping.

If you can afford to have your job shut down from your sweeper not showing up...If you can afford to be on the wrong side of your inspector because the sweeper didn't show or did a lousy job...If you can afford a sweeper without warning lights or one that sweeps dry, exposing you to OSHA or AQMD fines...If you can afford a sweeper with really short brooms that don't pick-up or that spends six hours to do a four hour job...If you can afford storm water violations there are always some cheap sweepers to save you some bucks in the short term. However...

IF QUALITY COUNTS...YOU CAN COUNT ON US.
