Full Size Street Sweepers

More powerful, heavy duty sweepers give the best results obtainable.

Water Dust Control

Complaints about dust can be a real headache. We have water dust control systems on all of our sweepers.

Per "Sweep" Pricing

If we skip a sweep because of rain or holiday and we don't make it up, you don't pay for the missed sweep.

Gutter Brooms

5,000+ rotating steel bristles to dig the muck and packed-in dirt out of gutters.

Legal Disposal of Debris

All debris is taken to a legal landfill – so you (and we) are not exposed to any environmental liability from illegal dumping.

Sweep With the Flow of Traffic

All of our sweepers have steering wheels and gutter brooms on both sides of the truck. This way we always sweep with the flow of traffic. To save money, many competitors don't equip their trucks this way and must sweep on the wrong side of the street, going the wrong way.

Insurance

\$5,000,000 liability plus full worker's compensation.

Labor Code 2810 Compliant

All operators are employees, not independent contractors or sub-contractors. The 10 point compliance list required by the law is available upon requested.

Contractor's License

Not really necessary for maintenance work, yet offers peace of mind. #620583

Reliable, Dependable Service

We show up on our scheduled day 99.99%* of the time. If we broke down at 3 p.m. and traffic did not allow a backup truck to get there, you would hear about it from us before any residents had a chance to call.

*(Holidays, rain and Santa Ana winds excepted.)

Experienced

We've been in business since 1953. Family run at the same location since 1962.

No Long Term Contracts

If we don't measure up we want you to be able to cancel our services with only 48 hours notice. We think it's good incentive for us to stay on the ball.

Custom Handouts

Like every maintenance activity, sweeping has things that hinder its effectiveness, like parked cars and water in the gutters. We provide handouts and notice slips, ready for your copier, with the association name and sweeping schedule. The more informed you are about sweeping the better you look AND the better we look.

California's 1st "Certified Sweeping Company". Certified by the North American Power Sweeping Association (naPSa) according to strict guidelines including safety, experience, continuing education, vehicle maintenance, driver training and adherence to naPSa's code of ethics. www.napsaonline.com
